

Paying All Day Kindergarten, Community Preschool, or Accelerate College Monthly Fees in PushCoin

Set up or log in to your PushCoin account by going to www.pushcoin.com and sign in or choose “I don’t have an account” and enter your information.

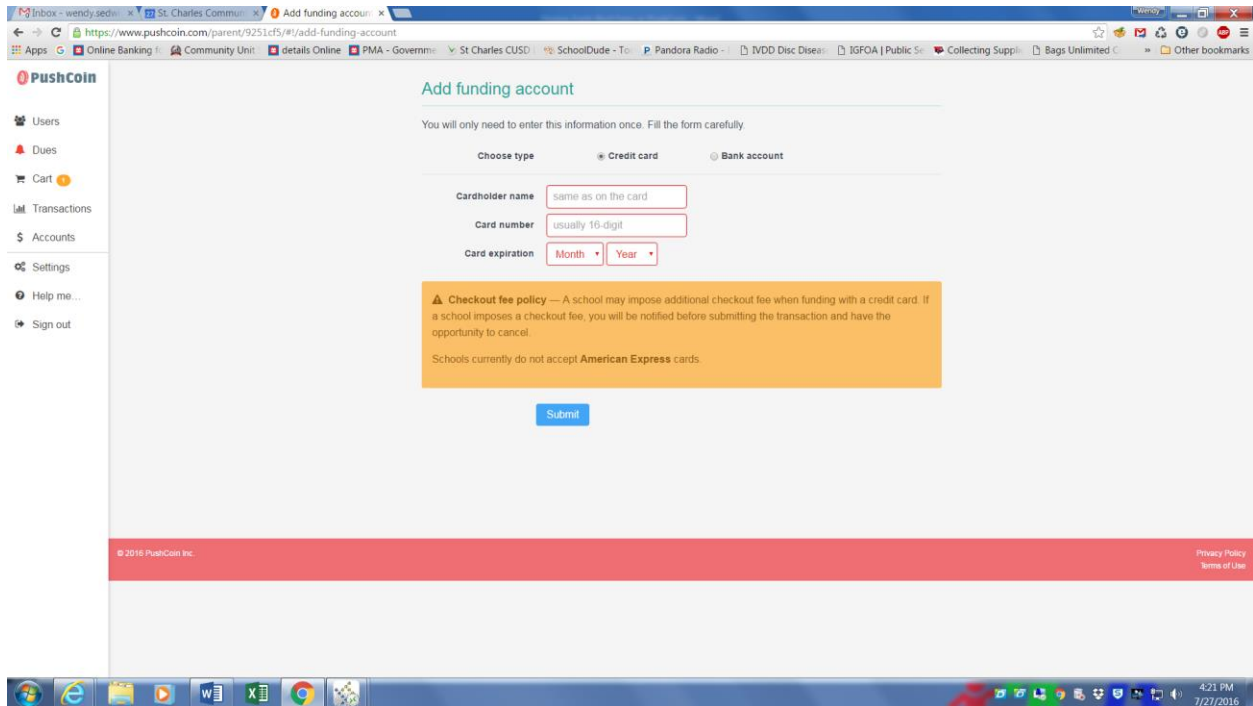

If you have not already, linked your student to your account. You can either enter their registration code if you have it (you can get this code from the school or Wendy Sedwick in the Business Office) or click “find a student” and choose the District, St. Charles CUSD 303, then enter your students first name, last name, date of birth and their student ID, then hit submit. You can continue this process until all of your students are added.

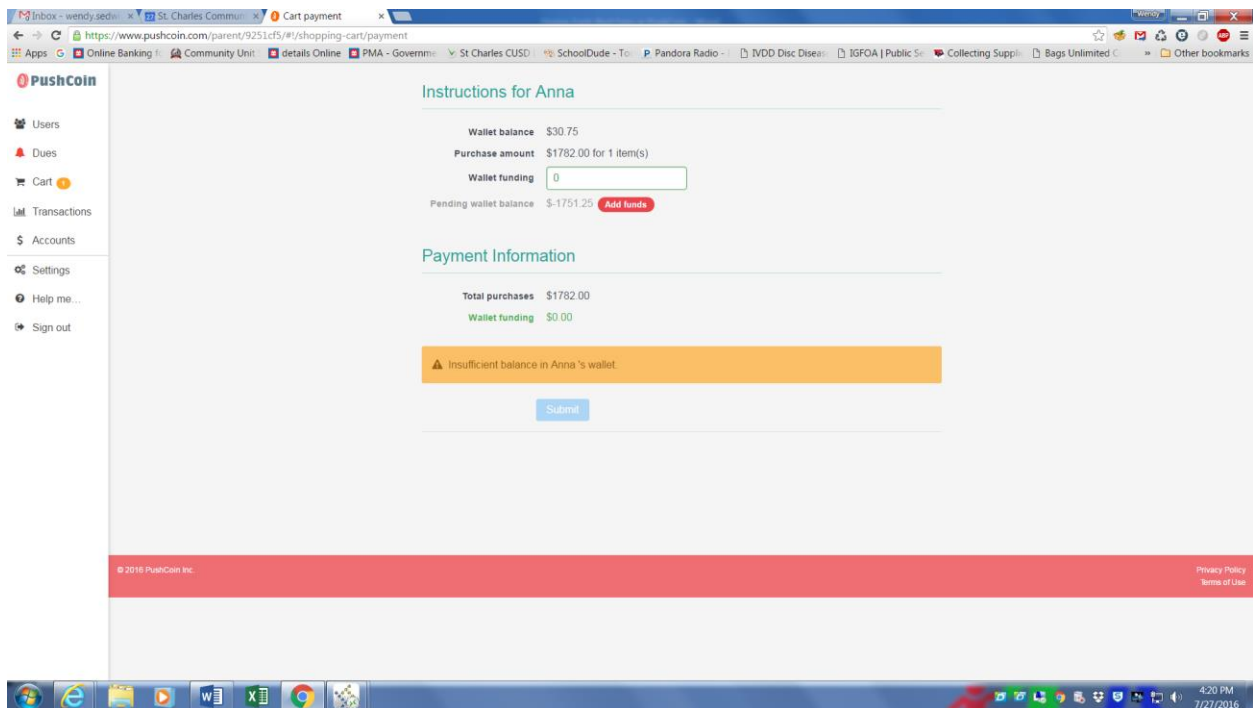

Click on the “Pay Fees” button.

You will then need to fund your wallet.

If you do not have any payment accounts or wish to pay with a different account, you can add an account simply by clicking on “Accounts” on the left hand side of the screen, then the blue Add Account button and enter the account information and submit.

To get back to your cart, just click on “Cart” on the left hand side of the screen and click continue, to get the screen to fund your wallet. Enter the amount to pay for your transaction and click on “Add Funds” and then submit.

Your purchase will then be complete.

If you have any questions you can contact your school or Wendy Sedwick in the Business Office at 331-228-4927.
